COURCHEVEL-097
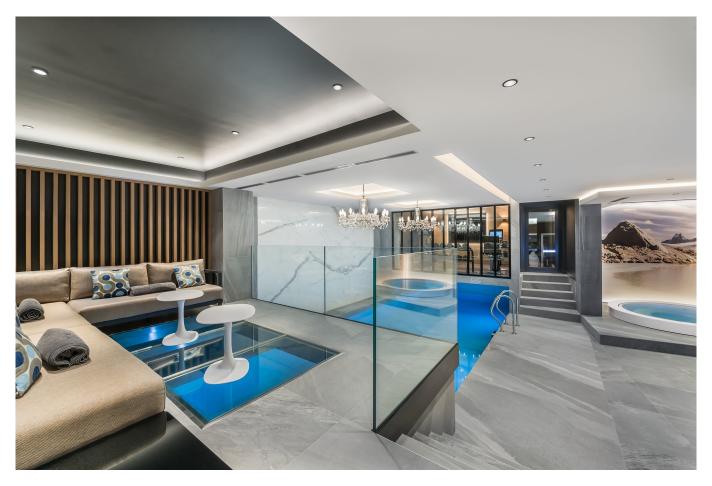

From: €80,000/Week

Luxury design chalet in Courchevel 1850

10-12 Guests • **6** Bedrooms • **715** m² / **7696** ft

This luxurious chalet has been designed and built to blend harmoniously into the landscape. Designed by Jean-Marc Mouchet, an architect from the region, it has beautiful living spaces with a contemporary design. Located in the exclusive district of Cospillot, close to the slopes and the city Centre, it is built and structured around exceptional views. With a surface area of 715 sq.m and distributed over 5 levels with elevator, it offers 6 bedrooms with private bathrooms for 10 adults and 2 children, including a beautiful master bedroom. Each of the bedrooms is decorated in the colours and shapes of French perfumes, with furniture dressed in notes of gold, silver, white and beige. The modern alpine spirit of this chalet combines and intertwines the same elements from one floor to the next: solid wood floors, slit beams in horizontal cladding inside, rough concrete stripping on selected walls, brass touch here and there to awaken the eye, the traditional checkered wool fabric made to dress the chalet windows, subtle associations between suede fabric and wool in each room. The chalet has a floor dedicated to leisure facilities: home cinema, bar and wine cellar. The sumptuous and refined spa area opens onto a covered swimming pool visible under the glass floor of the relaxation area and sauna, hammam, indoor jacuzzi, massage room and fitness room.
