It takes advantage of all day sun exposure, absolute privacy and panoramic views. It offers more than 1'000 sqm of living space and embodies the perfect combination of traditional Alpine understated chic and state-of-the-art amenities and comfort. Its dedicated team led by a skilled and dynamic chalet manager strives to ensure memorable times for the guests. Served by a lift, the chalet spreads over 5 impressive floors with stunning reclaimed wooden beams, traditional mountain features combined with rich fabric, exquisite decoration and intricately carved furnishings. While very spacious, it keeps intimate nooks and overwhelms with a refined and relaxed atmosphere. It sleeps 12 adults and 4 children in 6 large en-suite bedrooms plus a dormitory, each with a flat screen TV. The chalet boasts a stunning SPA and wellness area with a beautiful big indoor pool with adjustable depth, a sauna, a steam bath and a massage room next to a cozy relaxation area with a fireplace. The bottom level is dedicated to indoor sport and entertainment. The fitness room is kitted out with state-of-the-art Technogym equipment. Next door, you can sip a drink, play billiard, darts and other games in the living room/bar area or just unwind in the comfortable cinema room.
